About Me

I'm an indie game developer currently studying Visual Informatics at Masaryk University with a focus on game development.

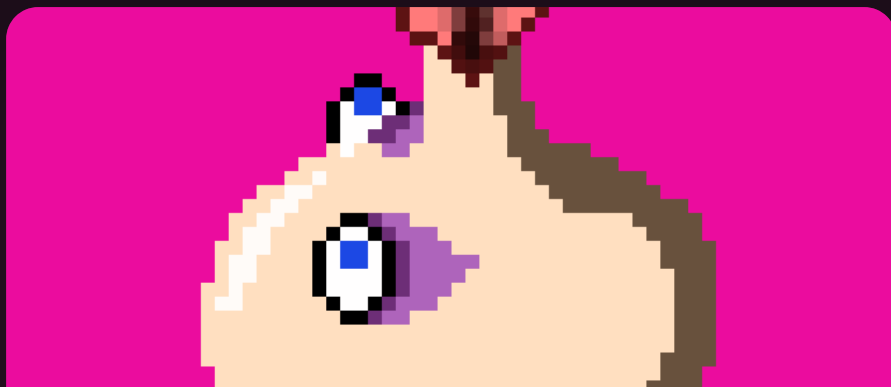

I specialize in gameplay programming and am passionate about animation, with experience working both independently and in team environments.

- Unity
- C#
- Game Design
- Game Development

My Games

A collection of games I've developed and collaborated on.

Tak bojuj, ne?! (Kissy)

Catch the words 'tak', 'bojuj', and 'ne' in the correct order to build your combo and rack up points before the clock runs out. Grab the Kissy face to send kisses and extend your remaining time.

FlowerPhobia

SHOW NO MERCY TO FLOWERS! You are visiting your grandma's house, she has beautiful flowers spreaded around her garden. Unfortunately.... you have a phobia towards flowers.... *yeah*. What do you do? Bonk the flowers of course! Join this little adventure of a game where you ruin your grandma's flower in an endless run while running away from her and managing your anxiety towards flowers. To survive is to bonk all the flowers as long as you can

A Long Time Eggo

In a medieval world with a chaotic twist, you must cook an omelette using ingredients that fly above the pan! Out them, then catch them in the air and prepare to serve your dish in a truly unconventional way.

Piranha Minigame

Beware of the Piranha!!! All you need to do is click and make the jewellery bag bounce to avoid the piranha catching it. If you can secure the bag while the timer is active, you win.

Solo Developer
